

Please leave my XM radio alone!!! There is only 1 talk radio station in Valdosta, Georgia. Also, I am a 50 year old mother of a 10 year old son, with my 76 year old father living near St. Louis, Mo. My son and I drive to St. Louis, Mo. at least 4 times a year. I need the weather and traffic reports, especially in the winter. It is much safer when I'm driving, to be able to tune to stations I know, and that I know I can depend on when I need them most. I hate having to fumble around with the radio looking for stations that I know will only fade out a few miles down the road. PLEASE REJECT NAB's PETITION 04-160!!Thank you, Stephanie Giglio (zgiglio@earthlink.net)
